

Project Kickoff Deck

Let's set our project up for success

Project Title:

Titanic Dataset Analysis
project

Agenda

- 01** Project Background
- 02** Project Task
- 03** Project Key Deliverables
- 04** Question And Answer
- 05** Project Requirement
- 06** Team Responsibility

Project Background

Titanic Dataset Analysis Power Bi Project

The Objectives of the project is to analyze the Titanic dataset and extract valuable insights regarding passenger demographics, survival rates, and other relevant factors using Power BI

Project Task

Data Cleaning

Demographic Analysis

Data Modelling

Family Size Analysis

Survival Analysis

Fare Analysis

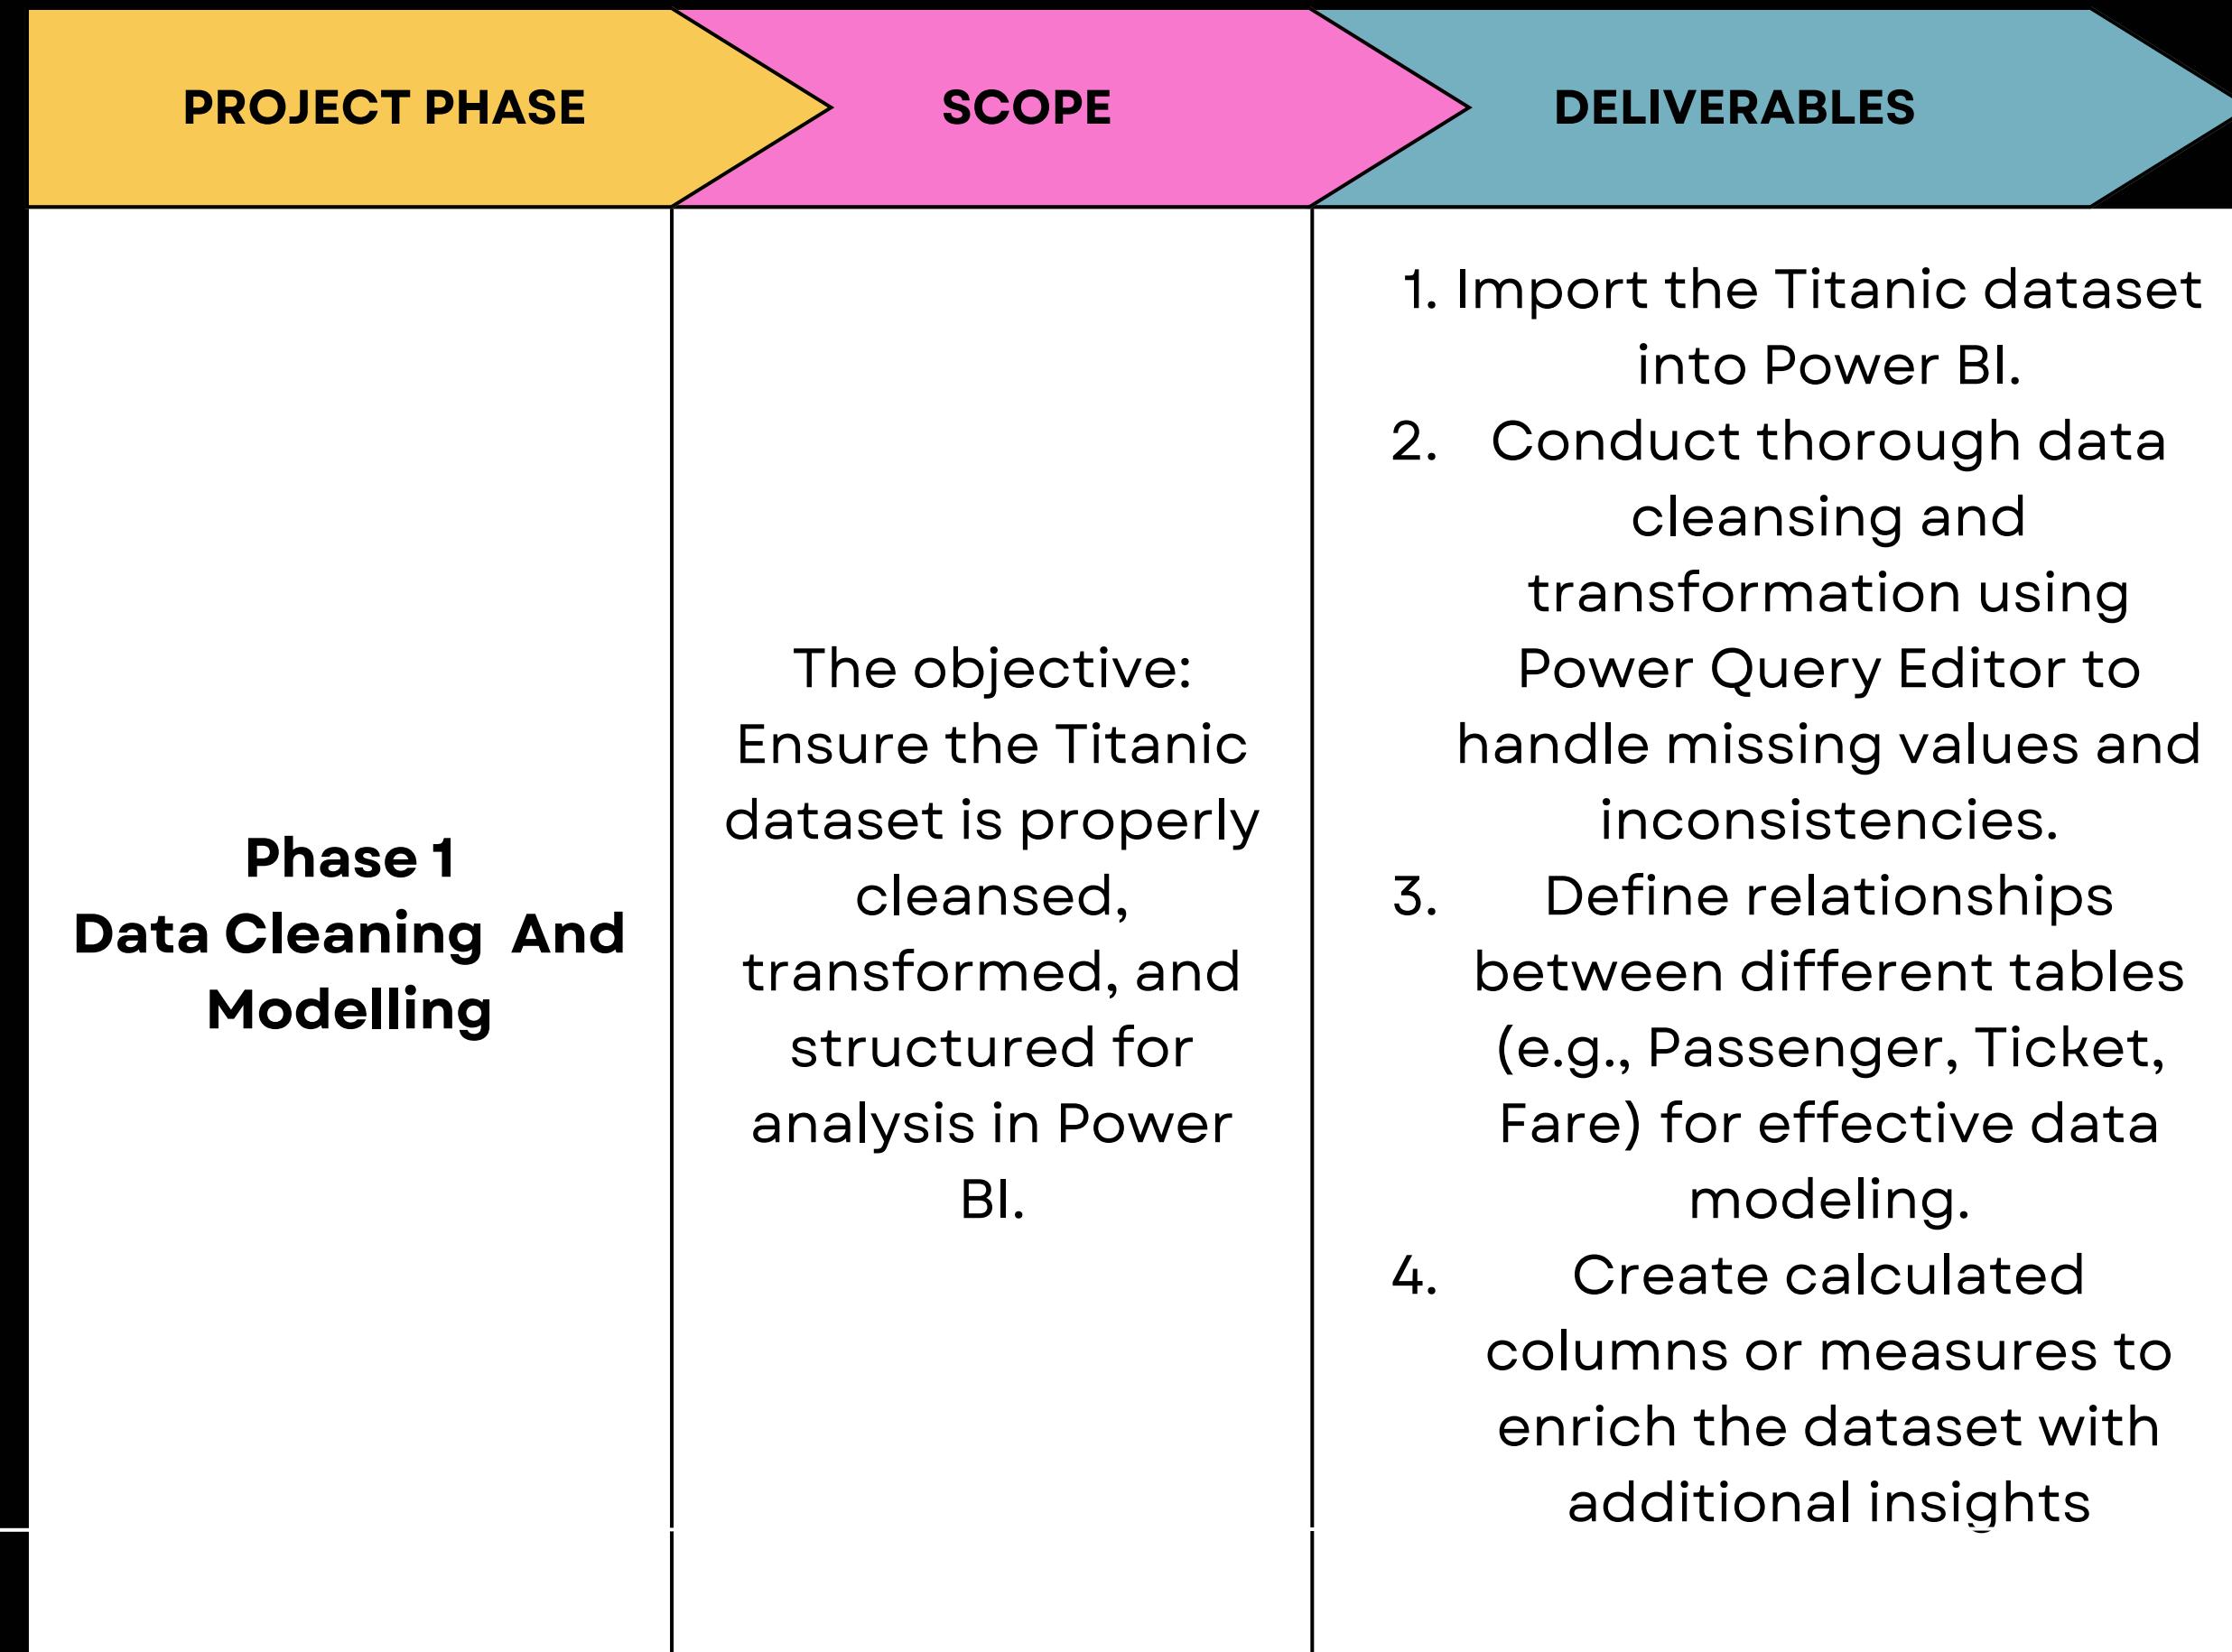

Project Scope and Deliverables

Describe what the project will entail and its anticipated output.

Customize this table! Just **right-click** on any cell to see all the available table functions.

To merge, **highlight first** two or more cells, then click "**Merge Cells**" to organize your table according to your needs!

PROJECT PHASE	SCOPE	DELIVERABLES
<p>Phase 3: Presentation of Analysis to Stakeholders</p>	<p>Objective: Present the findings and insights derived from the Titanic dataset analysis to stakeholders in a clear and concise manner</p>	<ol style="list-style-type: none">1. Comprehensive report summarizing analysis findings, key insights, and trends.2. Visually appealing dashboards in Power BI showcasing analysis results.3. Developed presentation highlighting significant findings and recommendations, addressing stakeholder questions and concerns

Project Timeline

Use the chart to schedule all the project tasks that need to be accomplished.

Project Requirement

Collaboration Platform

Dataset Repository

Data Analysis Tool

Team Responsibilities

Lead Data Analyst

Team co-ordination

Data Preparation

Data Modelling

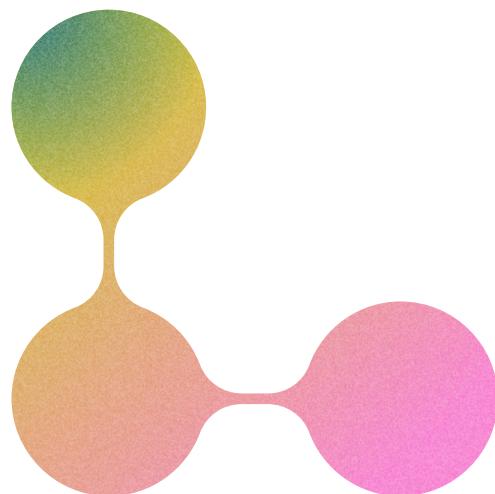

Data Visualization

Co- Data Analyst

Data Preparation

Data Modelling

Data Visualization

Thanks your
for
collaboration!
